16 July 1963

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Current Status, OSA Security Support
to [REDACTED] Program 25X1A

1. This memorandum is for your information only.

2. The attached memorandum from the OSA Security Chief is a good account of the amount of security support required by the [REDACTED] program. As he points out, the major problems are just beginning, and we will certainly have a substantial investment in protecting this part of the NRO's activities. I thought you might like to have a feeling for the amount of effort involved.
